PROFESSIONAL SUMMARY

Software Engineer with **1.7+ years of production experience** engineering enterprise web APIs, microservices, and full-stack platforms using **C#, .NET 8/10, ASP.NET Core, EF Core, SQL Server, React 19, and Flutter**. **1st Runner-Up in the AWS Ideathon** and certified in **AWS Cloud Practitioner** and **Azure Data Fundamentals (DP-900)**. Proven track record architecting multi-tenant SaaS platforms, optimizing database queries (cutting search latency from **7.0s to 1.1s**), and deploying resilient services to **Microsoft Azure**.

TECHNICAL SKILLS

Languages:	C# (12/13), SQL, TypeScript, JavaScript (ES6+), Dart, HTML5, CSS3
Backend & Architecture:	ASP.NET Core Web API, FastEndpoints, .NET Aspire, Clean Architecture, CQRS (MediatR), RESTful APIs
Database & ORM:	SQL Server, SQLite, Entity Framework Core (EF Core 8/10), Stored Procedures, Index Tuning
Security & Cloud:	JWT Bearer, Cloudflare CAPTCHA (Turnstile), API Rate Limiting, Microsoft Azure, AWS Cloud
Frontend, Mobile & Tools:	React 19, Google Maps API, RTK Query, Tailwind CSS; Flutter (Dart); POS APIs (Square, Lightspeed, Clover), Webhooks, Git

PROFESSIONAL EXPERIENCE

Intellisoft Technologies — Software Engineer

December 2024 – Present | Noida, India

- Architect and develop high-throughput backend APIs and services using **C#, ASP.NET Core 8/10, EF Core, and SQL Server**, adhering to **Clean Architecture** and **CQRS** across 4 production commercial platforms.

PINPS — Property Intelligence & Data Scraping Platform | C#, ASP.NET Core, .NET Aspire, CQRS (MediatR), React.js, Google Maps API

- Engineered automated web scraping pipelines to extract, validate, deduplicate, and persist rental listings (PadSplit) into SQL Server.
- Slashed average property search page-load latency by **84% (from ~7.0s down to 1.1s)** via EF Core query plan optimization, non-clustered indexes, and caching.
- Delivered reactive **React.js** features including interactive geospatial **Google Maps** search, dynamic multi-attribute filters, and lead capture workflows.

BarPatrol — Hospitality Inventory Management & Multi-POS Intelligence | ASP.NET Core Web API, Clean Architecture,

Square/Lightspeed/Clover APIs, Cloudflare

- Architecting POS integration pipelines (Square, Lightspeed, Clover) to sync sales and depletion data automatically, reducing manual reconciliation.
- Developed bulk inventory uploads, engineered mobile app AI invoice extraction (in development), and resolved multi-venue variance calculation anomalies.
- Hardened platform endpoints by implementing **Cloudflare CAPTCHA verification**, ASP.NET Core rate limiting, JWT Bearer auth, and claims-based RBAC.

GDM (Eco-On-Site) — IoT Smart Waste & Device Sensor Telemetry Platform | .NET 8, FastEndpoints, MediatR, IoT Device Webhooks,

React 19, Flutter

- Engineered resilient webhook ingestion endpoints to capture and parse live telemetry payloads emitted by physical IoT devices and smart bin sensors.
- Implemented automated collection scheduling logic, missed-disposal detection algorithms with MailKit alerts, and React 19 / Flutter interfaces.

SGDPS — Community Treasury, Field Collection & Society Management System | .NET 10, FastEndpoints, React 19, RTK Query, Flutter

- Built volunteer field collection mobile app in Flutter capturing real-time **GPS coordinates** with instant automated WhatsApp digital receipts.
- Engineered React 19 + RTK Query treasury dashboard with interactive residential tower collection heatmaps and real-time ledger accounting.

HONORS, AWARDS & CERTIFICATIONS

- 1st Runner-Up — AWS Ideathon (2024):** Awarded 1st Runner-Up for architecting an innovative cloud-native scalable solution on AWS.
- AWS Certified Cloud Practitioner:** Amazon Web Services (AWS) — Validated cloud architecture, security, and services.
- Microsoft Certified: Azure Data Fundamentals (DP-900):** Microsoft — Relational & non-relational Azure cloud data services.
- Oracle Certified Professional:** Oracle Corporation — Enterprise database design, SQL querying, and relational performance.
- Cisco Certified Network Technician & Cybersecurity Essentials:** Cisco Networking Academy — Routing, TCP/IP, and security.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

2021 – 2025 | CGPA: 8.6 / 10

Meerut Institute of Engineering & Technology (MIET), Meerut, India
